Active's Air-con Trunking offers an unbeatable range of Air-Conditioning Trunkings that comply strictly to the Singapore Standard SS 275 : 1999. It is designed to provide heat and chemical resistance, high impact and combustion strength, and corrosive free. Manufactured from durable uPVC, our Trunkings are widely accepted and specified by both consulting engineers and electrical contractors for their inherent safety, strength and durability. Thanks to on-going and wide-ranging consultation with our customers, we manufacture all our product ranges with the aim to make installation easier.
