

uPVC Drainage Pipe

Active's Drainage Pipe is manufactured from high impact uPVC, strictly in accordance to the Japanese Standard JIS K 6741 : 1999. They are physically tough, lightweight, non-ageing and self-extinguishing.

uPVC Drainage Pipes are recognized for their advantages to efficiently serve the drainage system of air-conditioning water discharge, which are extremely corrosive. The smooth bore of the pipe prevents interior build-up and provides outstanding flow characteristics too.

Code No	Normal Size	Outer Diameter	Wall Thickness (Class AE)	Standard Pack in Pieces
AGP13	13mm	18mm	1.8mm	50
AGP16	16mm	22mm	1.8mm	20
AGP20	20mm	26mm	1.8mm	20
AGP25	25mm	32mm	1.8mm	10
AGP30	30mm	38mm	1.8mm	10
AGP40	40mm	48mm	1.8mm	10
AGP50	50mm	60mm	1.8mm	10

Standard Length: 2.9 meter
Colour available: Grey
